PROFILE

Experienced in integrating appropriate technologies into website designs to meet demands of discerning client.

Looking to secure a long-term graduate(technical) role with a leading firm where I can aid organization growth and further develop my skillset.

EDUCATION

Full Stack Web Developer

MOAT Academy for Developers, Lagos Nigeria-2023

BSc, Biochemistry

Adekunle Ajasin University Akungba-Akoko, Ondo State, Nigeria – 2019

SKILLS: Communication, Critical Thinking, Complex Problem Solving, Active Learning, Ability to work independently or as part of a team, Proven leadership skills and ability to motivate, Strong written and verbal communication skills

PERSONAL PROJECT

A full stack project <https://quiztime.com.ng/>

Developed a quiz app (Quiz Time) from using html, css, bootstrap, jQuery and react js for front-end and python on the server side, with SQLAlchemy and the ORM to communicate with database. Implemented all frontend form validations including signup, and login using JavaScript and other functionalities, responsiveness and GUI.

MINI PROJECT COMPLETED

Javascript result checker <https://resultcheck.netlify.app/>

Implemented and Designed a form validator with pure Javascript. It gives the user an automated feedback as needed.

An updated version of this project is been used By Gbaja Boys Senior High school for faster and more efficient feedback on students reports card.

A front-end mini project <https://birthdaydesign.netlify.app/>

Made a static/demo website for birthday attendees with html and css, the main technology deployed here is the use of BOOTSTRAP, the details of users are collected

A front-end mini project <http://daisivincent.netlify.app>

Designed A personal static portfolio made it responsive with css and media query, implemented some bootstrap properties like Carousel, Modal, Accordions. Also added some font awesome icons.
